

# TEDxBanbury Speaker Announcement

## ***Visiting Guest Speaker - Anton Mozgovoy - Crypto Currency Start-Ups***

Anton Mozgovoy, Fintech specialist and former CTO of Humaniq, is announced as TEDxBanbury guest speaker from London.

Anton started his career at the Bank of Montreal – working on Apple Pay & Android Projects. In 2015 he founded Finlyt, a company working on algorithmic installments, and revolving credits. He joined Humaniq in 2017, working on blockchain solutions to create a financial marketplace for start-ups. Anton currently serves as a mentor in FastCapital, responsible for tracking start-ups in fintech, blockchain and crypto spaces.

TEDxBanbury Organiser Karen Baldry said ‘Anton is passionate about creating opportunities for those who have little access to the banking world. His talk will help to demonstrate some of the challenges parts of the world face with banking, and success stories resulting from crypto investment’.

As a child, Anton grew up in the Crimea, where all his summers were spent diving. He is now an avid free diver, and enjoys the thrill of visiting a new country, new diving locations, meeting people, and above all the ‘feeling of the void when you dive deeper’.

### **About TEDx, x = independently organised event.**

In the spirit of ideas worth spreading, TEDx is a program of local, self-organized events that bring people together to share a TED-like experience. At a TEDx event, TEDTalks video and live speakers combine to spark deep discussion and connection in a small group. These local, self-organized events are branded TEDx, where x = independently organized TED event. The TED Conference provides general guidance for the TEDx program, but individual TEDx events are self-organized. (Subject to certain rules and regulations.)

### **About TED**

TED is a nonprofit organization devoted to Ideas Worth Spreading, often in the form of short talks delivered by leading thinkers and doers. Many of these talks are given at TED conferences, including our annual gathering in Vancouver, as well as TEDWomen, intimate TED Salons and thousands of independently organized TEDx events around the world. Videos of these talks are made available, free, on [TED.com](http://TED.com) and other platforms. Audio versions of the talks from TED2019 will also be published to TED's podcast [TED Talks Daily](http://TED Talks Daily), available on Apple Podcasts and all other podcast platforms.

TED's open and free initiatives for spreading ideas include TED.com, where new TED Talk videos are posted daily; [TEDx](http://TEDx), which licenses thousands of individuals and groups to host local, self-organized TED-style events around the world; the [TED Fellows](http://TED Fellows) program, which selects innovators from around the globe to amplify the impact of their remarkable projects and activities; the [Audacious Project](http://Audacious Project), which surfaces and funds critical ideas that have the potential to impact millions of lives; [TED Summit](http://TED Summit), which gathers the most engaged members of the global TED community for brainstorming, discussions, performances, workshops and an eclectic program of mainstage talks; and the educational initiative [TED-Ed](http://TED-Ed). TED also has a library of original podcasts, including [The TED Interview](http://The TED Interview) with Chris Anderson, [Sincerely, X](http://Sincerely, X), and one of Apple Podcasts' most downloaded new shows of 2018, [WorkLife with Adam Grant](http://WorkLife with Adam Grant).
